Cured by Cuticura

I have used CUTICURA REMEDIES in two o here it proved to be successful. The first was e case of a boya year and a half old. His is and budy were in a terrible condition, the forme being completity covered with sores. I took him to the Massena Sulphur Springs, but he fail not improve any. I was then advised to try the CUTICURA RESIDENCE. He took one and on half bottles of CUTICURA RESIDENCE, when he skin was as smothe as could be, and is to-day, I use the CUTICURA on his sores and the CUTICURA SOAI in washing him. He is now five years of age, and all right. The other cases was disease of the scaig which cured by washing with the CUTICURA SOAI and rubbing in the CUTICURA, one bottle of CUTICURA SISOLOVENT being used. They have prove successful in every case. It is surprising how a child will improve under their treatment.

PAINS AND WEAKNESS

Under the influence of the missionaries the Indians of Montana are fast abandon-ing their old custom of placing their dead on platforms, or hanging them, wrapped in blankets, to the limbs of the big cottonwood trees which grow slong the streams; but now and then the hunter or cowboy still finds one of their old platform ceme-teries, or, it may be, only a tomb standing in the solitude of the vast, grassy plains. The original object of this odd way of dis-posing of corpses was undoubtedly to protect them from the wolves, which speedily dig up any grave such as the Indians coul make without pleas and shovels. In course of time the rude platform would be up turned by decay and the winds, but the Crow or Blackfeet kinsmen of the deceased had done their duty in the way of sepulture as well as they could and were not responsible for such accidents. After all, the mains thing was to satisfy the ghost of the de-parted so that he would go at once to the happy hunting grounds, content with the honors paid to his remains, and not hand
